Under the Higher Education Support Act 2003, the Australian Government provides assistance to Higher education and VET Students to assist with their studies.

All students who are in receipt of this assistance must be allocated a Commonwealth Higher Education Student Support Number (CHESSN).

The CHESSN is a unique identifier that is used to monitor assistance to eligible higher education and VET students. This includes the provision of data to the Australian Taxation Office regarding HELP debts. It remains linked to the student for the remainder of their academic life.
